

Microcredential Certificate

awarded to

Sandrine Monin

who has satisfied the academic requirements of the
microcredential below

***HZFM300 Teacher Training: Embedding Mental Health
in the Curriculum***

Module Result Distinction

Award date July 2020

Microcredential details

Level of study OU Undergraduate Inclusive learning hours 100 hours

Credit rating 10 credits

Learning outcomes:

- Demonstrate knowledge and understanding of the different ways in which mental health is defined and discussed and of the relationship between mental health and learning in diverse global contexts
- Design teaching, learning and assessment activities that promote mental wellbeing and are conducive to positive mental health
- Identify some of the barriers to embedding mental health into the curriculum and the ways in which they might be managed
- Demonstrate knowledge and understanding of potential impact of educational technologies on student mental health, and how those can be used to enhance student wellbeing
- Evaluate existing curriculum content and identify potential impacts, positive and negative, on student mental health
